## PROFESSIONAL SUMMARY

Web Developer with hands-on experience delivering freelance and internship projects across business websites, ecommerce, and web application prototypes. Strong focus on responsive UI, clean implementation, and practical solutions using WordPress, React, Next.js, Laravel, and modern frontend tools. Comfortable building polished user experiences and translating business needs into maintainable web products.

## CORE SKILLS

Frontend	HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, Framer Motion
WordPress / CMS	WordPress, WooCommerce, Theme Customization, Plugin Configuration
Backend	PHP, Laravel
Database	PostgreSQL, SQL, XAMPP
Tools	Git, GitHub, Vercel

## EXPERIENCE

### Freelance Web Developer | Independent Projects | *Recent*

- Built responsive websites and landing pages for small business and personal projects using WordPress and modern frontend tools.
- Handled layout implementation, theme customization, plugin configuration, and presentation-focused performance improvements.

### Web Development Intern | Internship Experience | *Recent*

- Supported frontend implementation, CMS-based page setup, and project revisions in a practical team workflow.
- Gained exposure to production-oriented development habits, structured content management, and iterative delivery.

## SELECTED PROJECTS
